

STEVEN AZIAVULA MIDEGA

Software Developer · Backend Engineer · IT Professional

stevenaziavula14@gmail.com · +254 702 284 867 · +254 105 266 741 · Nairobi, Kenya

PROFESSIONAL SUMMARY

Motivated and technically capable Software Developer with strong hands-on experience in full-stack application development, backend systems engineering, REST API design, relational database management, and cloud deployment. Proficient in Python, PHP, Kotlin, and MySQL with a proven ability to design and deliver production-ready systems from concept through to deployment. A fast learner with strong problem-solving instincts, leadership experience, and a genuine passion for building technology that creates real-world impact. Currently pursuing Cisco Cybersecurity and Microsoft AI Fundamentals certifications.

TECHNICAL SKILLS

Languages:	Python, PHP, Kotlin, HTML5
Frameworks & APIs:	Python Flask, REST API design, JSON handling, server-side logic, authentication systems
Mobile Development:	Kotlin, Android Studio — native Android, full app lifecycle
Databases:	MySQL — relational schema design, CRUD, query optimisation, data integrity, indexing
DevOps & CI/CD:	Git, GitHub, Vercel CI/CD, GitHub Actions, automated deployment pipelines
Cybersecurity:	Cisco Cybersecurity (In Progress) — network security, data protection fundamentals
AI & Cloud:	Microsoft AI Fundamentals (In Progress), cloud deployment via Vercel
Tools:	VS Code, Android Studio, Postman, GitHub

EDUCATION

Bachelor of Science in Software Development	2023 – Present
Nairobi, Kenya · Expected Graduation: 2026 · Year 3 of 4	
Relevant Coursework: Data Structures & Algorithms · Object-Oriented Programming · Database Systems · Web Development · System Design · Software Engineering · Computer Networks	
Kenya Certificate of Secondary Education (KCSE)	2022
Mbaikini High School, Wamunyu, Kenya · Mean Grade: C+	

PROJECTS

Freshify — Service Management System (Android & Web)

Kotlin · PHP · MySQL

Full-stack mobile and web platform with real-time tracking and admin management panel.

- Designed and built a complete Android application using Kotlin with PHP/MySQL backend and admin web panel
- Implemented secure user authentication, real-time order tracking, and scalable database management
- Applied MVC architecture and clean code principles throughout — maintainable, documented codebase
- Managed full development lifecycle from requirements through design, testing, and deployment

SABOOK — Social Networking Platform

PHP · MySQL · REST API

Multi-feature REST API backend with user auth, news feed, and community features.

- Engineered REST-style API backend with user authentication and dynamic content management
- Designed normalised relational database schema optimised for concurrent data operations
- Produced comprehensive technical documentation for all API endpoints and data models

Cloud Storage Application

Python Flask · GitHub · Vercel

Production-deployed secure file management system with CI/CD automation.

- Built and deployed a secure file-upload and management system using Python Flask
- Set up GitHub-to-Vercel CI/CD pipeline — automated production deployment on every code merge
- Implemented access control, input validation, and security best practices throughout

Student Records Management System

Python · MySQL

CRUD data management system with OOP design and relational database architecture.

- Developed CRUD application using Python with OOP principles and relational database design
- Implemented data validation, integrity constraints, and clean separation of business logic

LEADERSHIP & ACTIVITIES

Student Team Lead — Software Development Projects

2023 – Present

- Led teams of 3–5 developers across 4 projects from planning through to final delivery
- Facilitated code reviews, enforced quality standards, and resolved technical blockers
- Presented project outcomes to academic panels — experienced in structured professional communication
- Built collaborative team environments and maintained delivery momentum under real deadlines

PERSONAL DETAILS

Date of Birth:	19th November 2004
Nationality:	Kenyan
Languages:	English (Fluent) · Kiswahili (Native)
Location:	Nairobi, Kenya
Availability:	Full-time · Available immediately
